LIST OF PERIODICALS CURRENTLY RECEIVED IN ALBUQUERQUE BRANCH LIBRARY

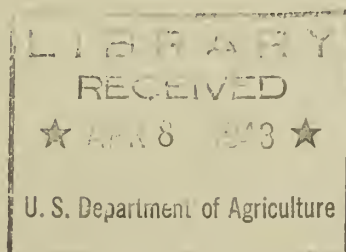

Periodicals may now be received regularly from the Branch Library by Department employees in regional and field offices.

List those periodicals which you wish to have sent to you regularly on loan and submit your list to the library. Please list only those which you feel are necessary in connection with your work. Your name will be placed on an automatic mailing list and you will receive the periodicals regularly. They will be loaned for three days in Albuquerque and seven days in the field.

When a periodical is requested by more than one person in the same office, a routing slip will be attached to the periodical with the names of the individuals to whom it is to be routed before it is returned to the library. Sign or initial the slip and indicate the date received and forwarded. If you fail to forward the magazine within the three-day time limit (from receipt of magazine), your name will be placed at the bottom of the next routing slip. The names of those who consistently fail to comply with the rules will be dropped.

If there are other periodicals needed in connection with your work which are not on this list, it may be possible to have them sent regularly from the Department Library in Washington by notifying this office of your needs.

You are urged to cooperate in this service by returning periodicals when they are due in order that others may see them while they are still new. Also please notify the library of any change in your address.

PERIODICALS CURRENTLY RECEIVED
 (revised December, 1944)

Some new titles have been added to the list for 1945. Please check the periodicals you need to see regularly in connection with your work and return this list to the Library.

PLEASE NOTE: If this notice is not returned it will be assumed that you no longer wish to receive periodicals on circulation.

For the information of the Department personnel who are not now receiving periodicals from the Library, the procedure for regular routing is as follows: Periodicals needed for official use may be received regularly on loan from the Branch Library by Department employees in regional and field offices. When you have checked and returned this list to the Library your name will be placed on a mailing list to receive those you have checked. If several people in one office wish to see a periodical, be sure to send all of their names. **DO NOT ASK US TO SEND PERIODICALS TO AN OFFICE OR TITLE. WE MUST HAVE THE INDIVIDUAL'S NAME.** A routing slip is attached to each periodical indicating the names of the individuals in an office to see it. The first person receiving the magazine keeps it for not more than three days and then sends it on to the next person on the list. This procedure continues until each person on the list has seen the magazine, and the last person on the list returns it to the Library. In order that this service may function satisfactorily, periodicals must be noted and passed on promptly.

If the person to whom the magazine is addressed is out of town and he wishes to see the periodical later, please have a fellow employee write "Return later" after his name and we will send it back after the magazine has completed routing. You are urged to cooperate in this service by returning periodicals when they are due.

If the periodical you want is not listed, ask for it. We may be able to borrow it for your use from the Washington Library.

Check the BIBLIOGRAPHY OF AGRICULTURE regularly for periodical articles pertinent to your work, and request these from the Library. This will save you the time spent in scanning many periodicals, and will give you complete coverage in your field.

TO THOSE NOT RECEIVING PERIODICALS

We need your help in adjusting the loan period on current periodicals.

In order to make sure that you will have time to read your periodicals it is necessary for us to know the number of days it takes for mail to reach you. If you will give that information in the space provided below, the time required for periodicals to make the round trip from Albuquerque will be added to the regular three-day loan period.

It takes _____ days for mail to reach me from Albuquerque.

✓ PERIODICALS RECEIVED IN ALBUQUERQUE BRANCH LIBRARY
(Revised April 1950)

This is a list of periodicals available for regular routing from your Branch library. Look it over.

Do you receive the periodicals you need in your work, or are you receiving some you can do without.

In making your selection and revision, please keep these points in mind:

1. Selection of titles should be limited to those most important and necessary for regular scanning in connection with official work.

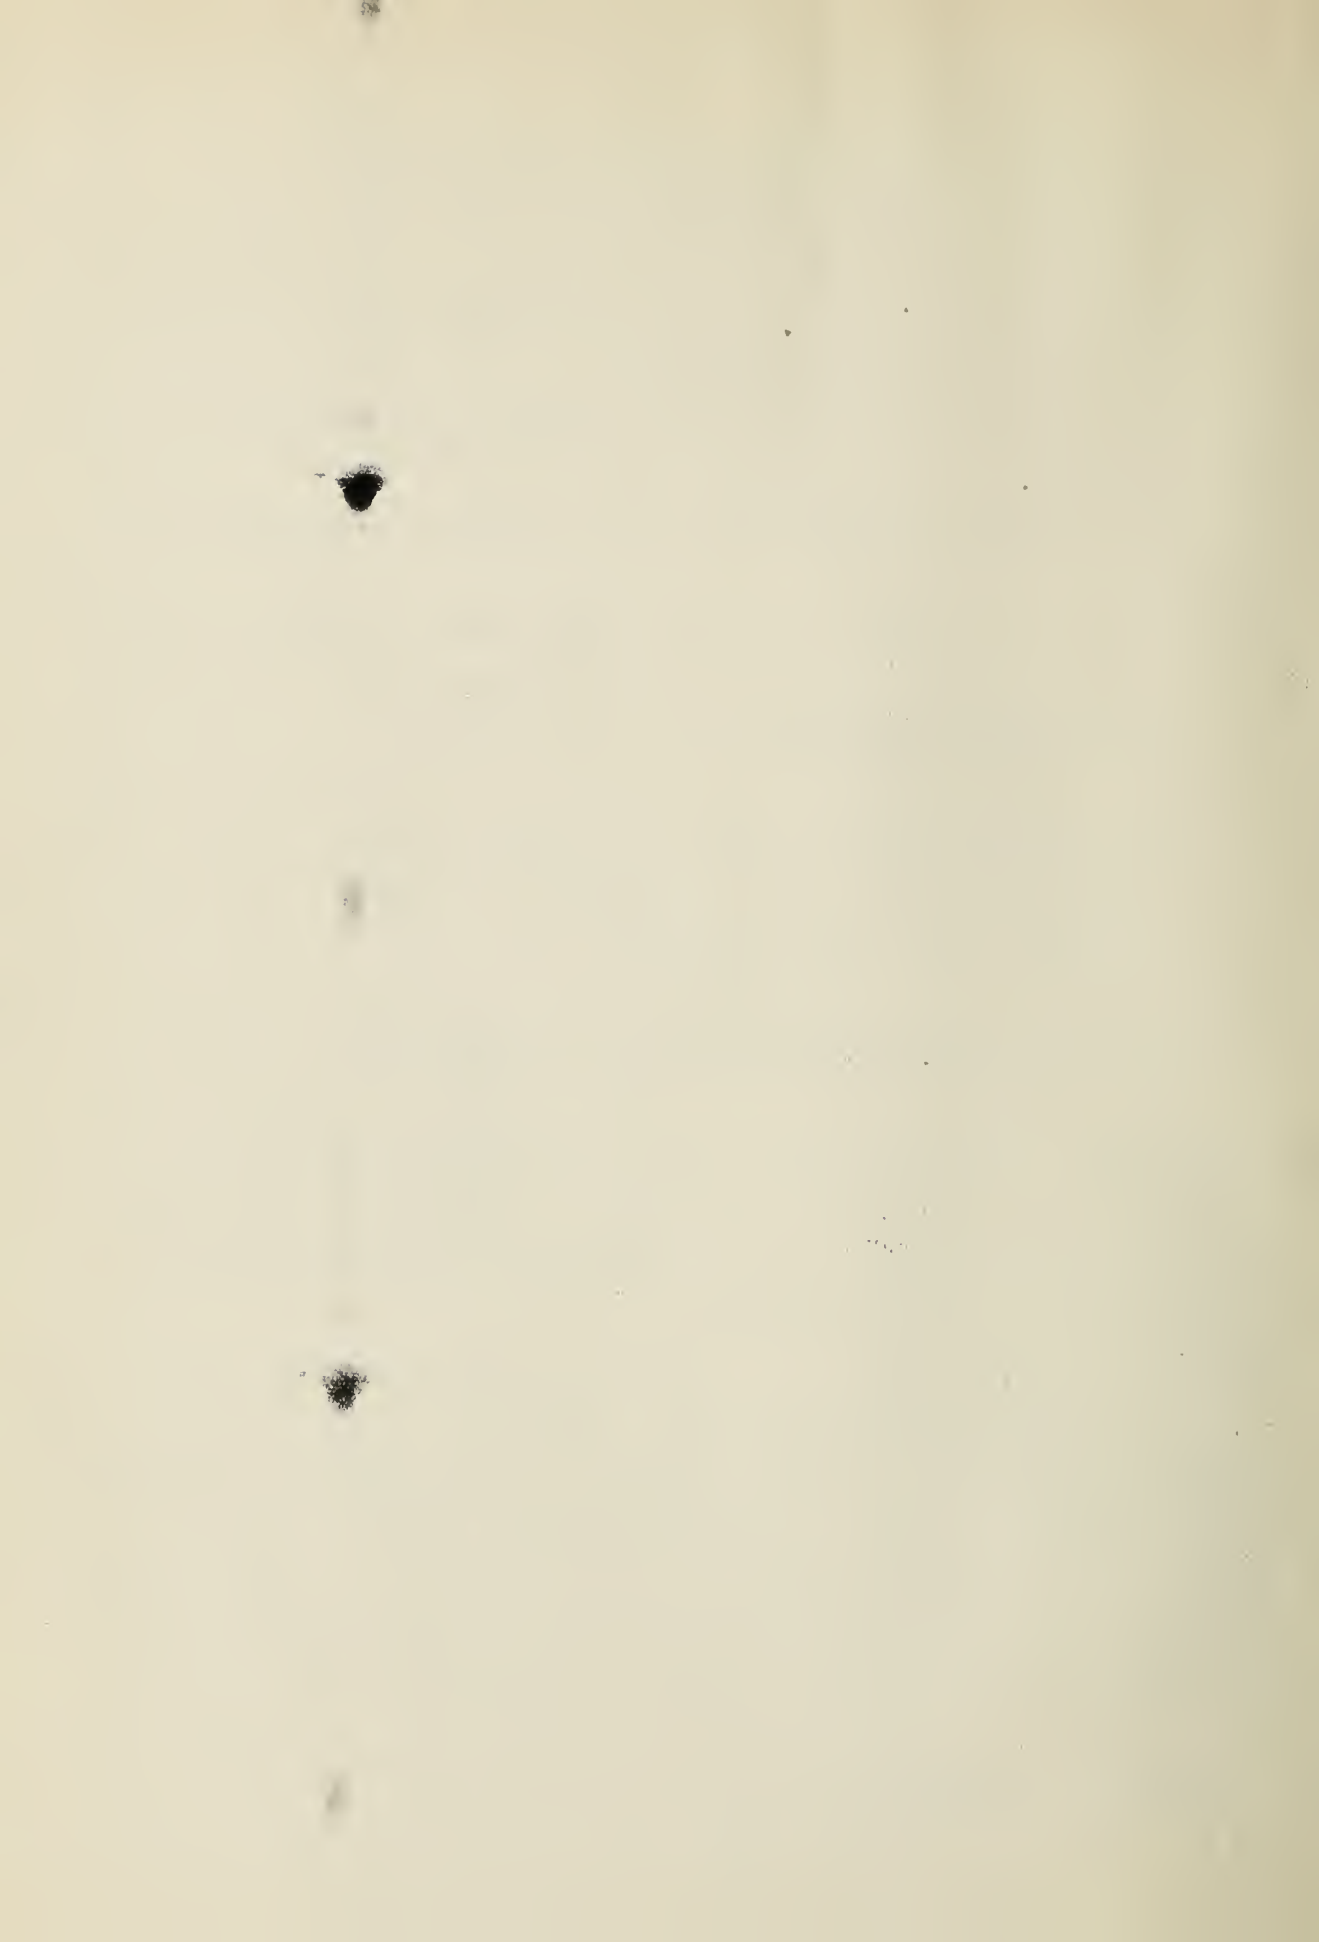

We do not have the money to subscribe for all the periodicals we need in the library, or for as many copies as desirable of those we do take. So if a periodical is not going to help you in some way in your work, please do not ask for it.

2. The Bibliography of Agriculture may be used to help locate articles in specific fields of interest and thus eliminate time spent in scanning many periodicals.

IMPORTANT - PLEASE NOTE. Submit requests for periodicals you wish to see (new titles only) on plain 3 x 5 slips (not form AD9245) with title of periodical at top of slip and your name, agency, and address below - one title to a slip. PLEASE DO NOT SUBMIT REQUESTS FOR PERIODICALS YOU ARE ALREADY RECEIVING FROM THE LIBRARY. If you wish to drop several titles, all those titles may be put on one slip. Be sure to put your name and address on the slip.

For the information of employees who are not now on our circulation lists, the procedure for routing periodicals is as follows. A routing slip is attached to each magazine on which are the names and addresses of the persons wishing to receive the periodical regularly. The first person on the list keeps it no longer than three days then sends it on to the next person on the list. The person receiving the periodical last returns it to the Albuquerque Branch. The dates the magazine is received and forwarded are to be placed in the columns provided. Please remember there is a THREE DAY limit on current periodicals. Our circulation lists are frequently long so a periodical may be rather old before it reaches you. You can help this situation by reading magazines and sending them along to the next person promptly.

USE A NEW PENALTY INDICIA EACH TIME YOU FORWARD A PERIODICAL TO ANOTHER OFFICE, AND MAKE SURE THE ENVELOPE IS SEALED.

U. S. DEPARTMENT OF AGRICULTURE LIBRARY
ALBUQUERQUE BRANCH
BOX 1348
ALBUQUERQUE, NEW MEXICO

PERIODICALS RECEIVED IN THE ALBUQUERQUE BRANCH LIBRARY
(Revised January 1952)

POINTERS FOR PERIODICAL READERS

SELECTION

This is a list of periodicals available for regular routing to U.S.D.A. employees. Please limit your selection to the titles you really need in connection with your official work. If in doubt, let us send you a sample issue for review. Our lists are long and funds for duplicate subscriptions limited, so cull from your list any superfluous titles.

REQUESTS

Submit requests for periodicals on plain 3 x 5 slips (not form AD-245) with title of periodical at top of slip and your name, agency, and address below (give post office box number if possible). Put each title on a separate slip. Do not submit requests for periodicals you are now receiving from the Library.

READING TIME

Not more than 3 days for each person. If several in your office wish to see the same periodical, send us all the names. It lengthens the time we schedule for your office.

FORWARDING

Pass on promptly to the person whose name is directly below yours. If your name is last send the periodical promptly to the Albuquerque Branch. There are other circuits waiting.

MAILING

Use the mailing frank unless the package weighs over four pounds. Use a new penalty indicia each time you forward a periodical, and make sure the envelope is sealed.

CHANGES

Send directly to the Branch Library requests for change of address, cancellation of titles or additions. Remember that if you use the routing slip to give us that information it may be weeks before it reaches us.

WAITING PERIOD

New requests and changes will be added to our lists immediately and become effective at once. Even so, it may take some time for results to show at your end. Issues sent out before your notice of change reached us will continue on the old routing until they get back to us. Newly added titles will travel for some time to names ahead of yours before the first issue reaches you.

THE LITTLE MAN AT THE END

If you ---- and your secretary ---- remember that even beyond the name at the end of the slip you see there are others on other circuits waiting to read, perhaps you'll help that man at the end to get a better break
